PREFACE.

THE Ritual adopted by the Modern Order of Epopts is so long that it can only be learned and retained by constant attendance at the meetings, and as many are so situated that they cannot attend regularly, they soon forget much that they have learned, and thus lose interest in the subject, until their connection with the Order becomes merely nominal, or is entirely severed in default of the payment of dues.

From this state of things arise the need and demand for some means of refreshing and aiding the memory, outside of the Ꝛ, and for the want of an authentic work on the subject. Epopts are availing themselves of any

means of information that comes within their reach ; hence the extensive sale of open and highly erroneous exposes, that are sold alike to members of the Order and the *public at large*. To arrest this evil, and meet the demand for a work of this nature that is both accurate and legitimate, this volume has been prepared.
